

ASCO

ALUMINUM SUPPLY CO.

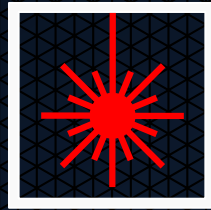

Creating your vision in metal since 1948.

ABOUT US

Aluminum Supply Company, Inc. (ASCO) was founded in 1948. The original concept was to create a one-stop wholesale depot for aluminum building products and accessories. As market trends and demands have changed over time, ASCO has adapted and evolved, continually striving to offer diverse products and experienced support staff. ASCO as a whole continues to expand; with new machinery and staff skill sets. The quality of our products is only exceeded by our customer support.

LASER CUT FABRICATION

Cutting custom shapes by hand into metal is a delicate and time consuming process. Our new fiber optic laser cutting machine will cut that time with a 1060-1070nm laser beam. Precision ultrasonic CNC motors deliver $\pm .00394$ " accuracy. This addition to our already extensive fabrication operation expands and improves our capabilities.

LASER

- HIGHLY ACCURATE
- FASTER TURN AROUND
- LESS EXPENSE
- LETTERING/SIGNAGE
- INTRICATE DESIGNS
- PRODUCTION QUALITY

SHEAR

Our large hydraulic squaring shear handles the majority of material in our shop. Its repeatable precision is where our great fabrication begins.

Accurate Squaring
Precise Cut-to-Length

BRAKE

4 Diverse Brakes
Precision Air Bending
Versatile Die-Set to fit many applications
Small Parts - 12' pieces
Hole/Louver Multi Punch or Flatten

NOTCH

SMALL PARTS & LARGE PANELS
This machine can quickly create square notches up to 8". It is integral in the process of making pan-shaped products (Architectural Panels).

PUNCH

ACCURATE HOLE PLACEMENT
Multiple mechanical punches and vertical mills place holes where they need to be in the field.

WELD

QUALITY JOINING
Our talented welding crew works to join and blend materials, creating hidden seams in a variety of materials and thicknesses.

SAWCUT

CUT TO LENGTH
V-GROOVE Cost effective composite panels.
Sharp 90° bent corners.
Ask how a simple saw blade can change fabrication.

ASCO CAD

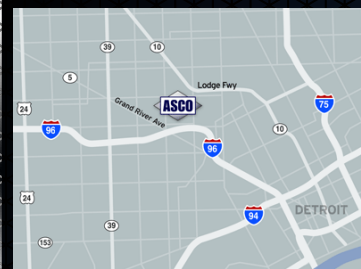

COMPUTER AIDED DESIGN
FABRICATION ESTIMATION

Our CAD Design & Estimation department has worked on thousands of projects requiring custom fabricated metals. From simple flashing to complex panel systems, they have seen pretty much everything out there. If you have an idea that seems too complex, they'll be the ones to help.

- DAN GUTH** dguth@aluminumsupply.com
- MATT RAUSCH** mrausch@aluminumsupply.com

Specializing in standard/custom metal building products for:
Display Manufacturers
General Contractors
Glass & Glazing
Masonry
Millworkers
Roofers

Accomplished in Manufacturing:
Assembled Products
Components
Enclosures
Frames
Prototyping
Structures

Aluminum Supply Co.
14359 Meyers Road
Detroit, MI 48227

DETROIT MICHIGAN

For over 60 years ASCO has distributed material and crafted metal in Detroit. We will stick with our city and help rebuild it. Our staff volunteers time to help in various community involvement activities. **Lets get to work Detroit.**

Questions? detroit@aluminumsupply.com

www.AluminumSupply.com

6063-T52 Architectural

Common general purpose aluminum for extrusions
Great for Anodizing - Corrosion Resistant

- Round Rod
- Square Bar
- Rectangular Bar
- L Equal Angle
- L Unequal Angle
- T Tee
- Round Tube
- Square Tube
- Rectangular Tube
- U Channel
- U Glass Channel
- H Glass H Beam

6061-T6 Structural

Affordable Strength - Framing and structural
Corrosion Resistance - May crack if brake-formed

- American Standard**
Rounded inside corner
Tapered leg thickness
- Aluminum Association**
Standard sharp 90° Angles
Classic Architectural Look
- I-Beam Channel
- Equal Angle
- Unequal Angle

EXTRUSIONS

CUSTOM SHAPES

- A - Sometimes the standard shape will not meet the specifications of your unique project.
- B - In many situations extruded material can meet or exceed specification of custom fabricated metals.

OUR DIES We have many custom dies in stock at the mills.
Send us your extrusion design >> We might have a match or we can make you one.

PIPE & TUBING

- Schedule 40 - 80 Pipe
- 1/8" - 12" Nominal Pipe Size

IN STOCK

Get DRAWN Drawn round tubing goes through an additional process, "drawing". This increases most aspects of the tube:

Stronger - Tolerance - Bending - Finish - Formability

STANDARD SHEET SIZES

- 48" x 96"
- 48" x 120"
- 48" x 144"
- 48" x X"
- 60" x 96"
- 60" x 120"
- 60" x 144"
- 60" x X"

**** X" Length ****

Many types of sheet stock can be ordered to nearly any reasonable length.

Most fabrication can only be done up to 144"

SHEET STOCK

ALUMINUM

- Anodized
- Mill Finish
- Painted

STAINLESS 304

- 2B Mill Finish
- #4 Brushed
- #8 Mirror/Polished

STEEL

- Cold/Hot Rolled
- Galvanized
- Painted

Diamond Plate - Tread Brite - Embossed - Corrugated - Perforated - Expanded - Copper - Brass - Bronze - Lead Coated Copper - Paint Grip - Tin - Nickel - Titanium

With our industry connections we can find the metal you need to finish the job.

COLOR PAINTED

STOCK

Over 30 factory painted colors in stock to match nearly every architectural application.

CUSTOM

KYNAR 500 We work with the industry's best in certified paint to meet the specifications of any job.

CUSTOMER STOCKING

Drawn out, multiple phase job? We'll store your material until the next release in our climate controlled warehouse.

ASCO ADVANTAGE

You are purchasing more than 100% Prime metal when you choose ASCO. Along with your order comes years of unmatched industry experience combined with a caring purpose. We are dedicated to providing products and service levels that meet our customer's requirements with uncompromising integrity. This is the ASCO Advantage.

LOGISTICS

Daily deliveries around SE Michigan.
Dedicated interstate runs for priority shipments.
Many reliable LTL carriers and major delivery companies.
Many of our products have traveled to the far reaches of the world.

ADVANTAGE

CERTS

Certified:

ADVANTAGE
ACCOUNT
EXECUTIVE

Sometimes orders requires more than the standard quality customer service expected from ASCO.

For these we have our Account Executive:

Brian Pollak

bpollak@aluminumsupply.com

CELL: (248) 909 - 4439

Contact him today for enhanced service.

INDUSTRY
KNOWLEDGE

Our inside sales staff have the knowledge you need to get the products to complete your job. They specialize in our standard products listed on this page, but they know about all things metal.

Looking for an odd-ball part? Rare Alloy? Contact us today!
